
Reversible, 4-Way Stretch

Brilliant White, 4-Way Stretch, Reversible, Removable Top Cover

Our Brilliant White, 4-Way Stretch pillowtop is found on the Bed 4 Life 7500 and 5500 Airbeds and offers many of the same features found on the Seasons Pillowtop.

Poly Blend Fill

Our Brilliant White, 4-Way Stretch pillowtop is completely removable and reversible, to greatly improve the wear-and-tear most beds experience. Both sides of the pillowtop are filled with a unique poly blend that is designed to prevent excess heat loss. By flipping your mattress pillowtop, you will prevent lumps and settling found in other traditional mattress pillowtops.

Quiltflex

In between these 2 padding layers is a 1" layer of patented Quiltflex™ by Foamex. Quiltflex™ is not made of fiber...it's more like memory foam, only without the visco-elastic properties. Quiltflex™ is sewn right into the pillowtop, inbetween each fiber layer for the summer and winter sides, and serves 2 basic purposes.

- Quiltflex eliminates shifting and "lumping" of the pillowtop material, so your pillowtop will look fresh and new for years to come.

- Quiltflex is designed to eliminate body impressions. This means that your pillowtop will not develop body impressions (or "sag") over time. Your airbed will look new every night.

4-Way Stretch

On the outside of all this stuffing is a revolutionary and patented 4-Way Stretch fabric (Brilliant White), in place of cheaper and more traditional damask or non-stretchable materials. It would be a shame to invest in all these comfort layers, only to have a non-stretchable fabric on top! We feel that the fabric needs to protect the airbed, but doesn't have to inhibit comfort. This heavy duty, double-stretch fabric is as beautiful as it is durable.

Zipper

We have thought of everything on this pillowtop...right down to the zipper! Think about it: if you're going to remove the pillowtop to clean it or just rotate it (which we encourage you to do!), then you're going to put quite a bit of stress on that poor zipper! We realize that you need a zipper that is durable enough to withstand many removals over the years, and also one that is easy to use for the average person. Our oversized zipper is larger than conventional tailoring zippers, and has a unique lock-free design. Go ahead...zip away!

Convenience

When you think of an airbed like this with a removable, dry-cleanable, pillowtop, it seems like a no-brainer, right? Well, have you considered that most airbed companies (including Select Comfort) keep their pillowtops sewn to the bed? That's right, we are the only company to offer fully removable pillowtops on every airbed. In fact, if anything ever happened to your pillowtop (rip, tear, spill, etc...) you could buy just a new pillowtop and replace it in seconds.

Health Health is a big concern in our world today. Most people focus on exercise, eating habits, etc... but have you considered the health of your airbed, on which you spend up to 1/3 of your life? Traditional mattresses are usually a haven for dust mites, mold, bacteria, and even buildup of your own skin and hair shed over years of use. Not a pleasant picture! Our pillowtop is made of only hypo-allergenic and anti-dustmite materials, from the 4-Way stretch fabric, to Quiltflex and even the Summer/Winter fill fibers.

Plus, because it's removable, if there is ever a concern, just zip it off and send it to the dry cleaners once a year, just to be safe. It's simply the healthiest sleep experience you can buy. Do it for your health!
